

This SC SWCS- sponsored symposium seeks to

**educate participants on
the future of renewable
energy sources, such as
bio-diesel, ethanol, and
green power.**

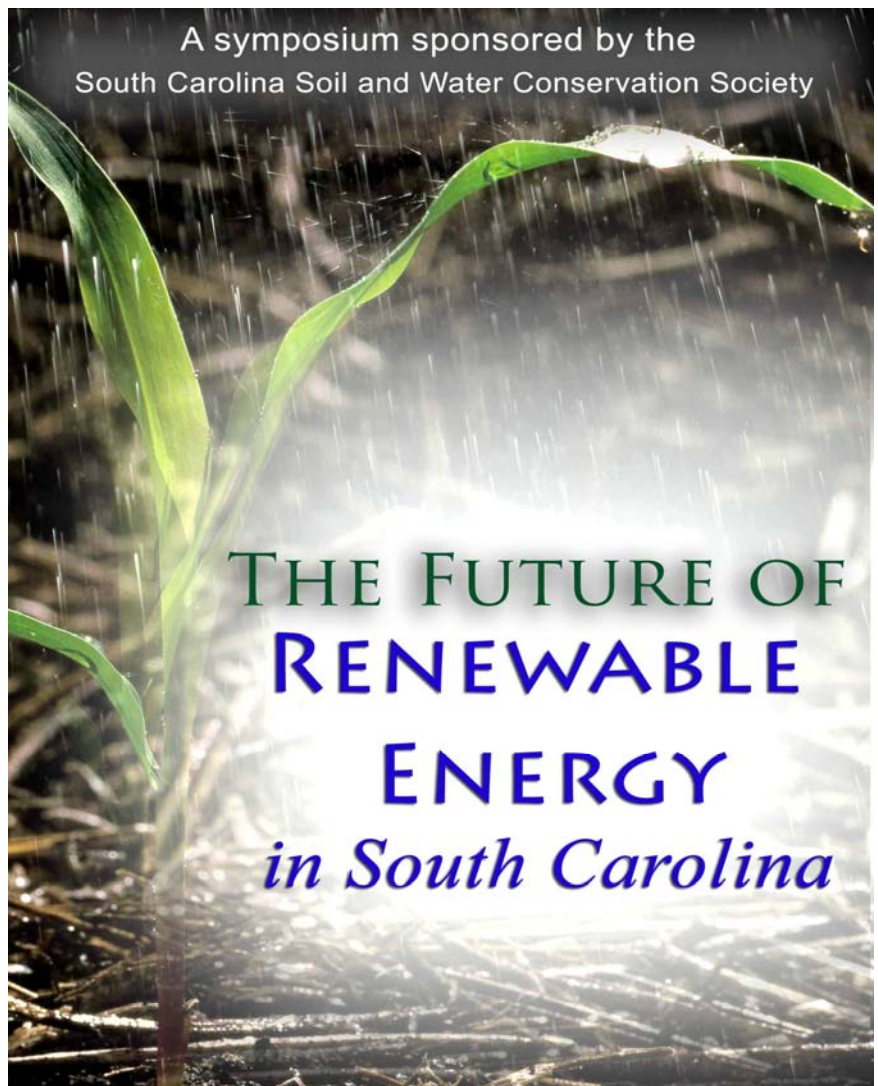

Confirmed speakers include—

Erica Hartwig, SC Energy Office;
Aaron Wood, SC Dept. of Ag (Soybean Board);
Alma Evans, Santee Cooper;
Jeff Lucas, USDA-Natural Resources Conservation Service (NRCS) ;

Don't miss this exciting discussion on the future of renewable fuels, the pro's and con's, and how farmers, and consumers may be affected.

Did You Know?

- South Carolina's corn and grain farmers may be positioned to capitalize on the growing national movement toward ethanol-blended fuels.
- If you had a spare acre in your backyard, you could raise enough corn to make enough ethanol to drive a Land Rover (which gets 17.5 miles per gallon) about 5,000 miles!
- Ethanol can stretch the current oil supply, while offering a fuel "oxygenate" that does not contaminate groundwater.
- There are federal/state financial incentives available for producers who utilize renewable energy sources.

January 3, 2007

Embassy Suites-Myrtle Beach
Symposium will kick off with lunch at 11:30 a.m. and conclude at 4:30 p.m.

- **\$50 early registration fee (by December 12, 2006) includes breaks and lunch**

- **REGISTER by completing the form on the back of this sheet or visit:**
